Fabulous 3D Flying

Design Features:

- Newly designed main rotor head set enhanced the strength of the metal part. Utilization of high precision bearings resulting in improved stability and agility flying characteristics. Newly designed metal control lever and CCPM metal swashplate improved 3D performance.
- New anti-rotation guide, with the strengthen frame base enhanced the structure strength for the main frame.
- Newly designed servo screw retainers to simplify installation and maintenance.
- Strengthen landing skids enhanced its durability. The added skidproof screw holes make easier assembly.
- Single unit tail belt unit with the new counter weighted tail blade grips make it easier assembly and improving rudder efficiency.
- Streamlined design canopy, with colorful painting to make effectively contrast in the air.

Specification:

- Length: 430mm
- Height: 163mm
- Main Blade Length: 205mm
- Main Rotor Diameter: 460mm
- Tail Rotor Diameter: 108mm
- Motor Pinion Gear: 15T
- Main Drive Gear: 120T
- Tail Drive Gear: 28T
- Drive Gear Ratio: 1:8:4.28
- Weight(w/o power system): 148g
- Flying Weight: Approx 340g

Accessories:

- T-REX 250 Kit Set X1 set
- 205 blades X1set
- 205D Carbon Blades X1set
- RCE-BL15X 15A Brushless ESC X1 (Built-in 5-6V step-less adjustable BEC)
- 250SP Brushless motor X1
- GP750 Head Lock Gyro X1
- DS420 Digital servo X1
- DS410 Digital servo X3
